The Lord said the blind will see the lame would walk  
those golden streets  
The deaf would hear the angels sing the righteous  
would be given wings  
So I know I will find up there the answer to my nightly  
prayer

He'll heal my broken heart  
Put each shattered piece where it belongs  
His mighty hand can make the red sea part I know  
He'll heal my broken heart

He saw you leaving me and he saw me on my knees  
He heard me call your name till I nearly went insane  
Just before I lost all hope I heard a voice say just hang  
on

He'll heal my broken heart...  
[ steel ]  
His mighty hand can make the red sea part I know  
He'll heal my broken heart
