

Daryle Singletary "Real Deal"

Visit "[Real Deal](#)" on MotoLyrics.com

Seems like it's hard to find two people these days
Whose hearts have genuinely got what it takes
To stay together whenever times get tough
First sign of any little problems they have
You'll find 'em both off with somebody else
You'll never find them with either one of us

We've got the real deal
You and me together that's the real deal
Hey if this don't last forever darling nothing will
Cause when it comes to love we got the real deal

Even though you wear an imitation rock on your hand
That matches my certified gold plated band
We've got one thing one thing that money can't buy
I'm not talking bout that replica of Vincent VanGogh
That's hanging in the hallway of our modular home
I ain't bragging but girl it ain't no lie

We've got the real deal...
[guitar - fiddle - piano - steel]
We've got the real deal...

If this don't last forever darling nothing will
Cause when it comes to love we got the real deal
