She said:

I wish the problem wasn't chemical
My conversations weren't subliminal
I wish this cycle had an end

She said:

My mouth has always held the silver spoon
I know that if I don't do something soon
I'll have needle as a friend

Chorus

Watch me falling - shameful, stalling
I'm broken down and still there are no answers for me
Please ignore me, I wonder why you are not listening

She said:

I'm sick of lying to my therapist
My life is something that my parents missed
And now they want to make amends

She said:

I wish I wasn't so unfortunate
Somehow I've got to make the pieces fit
I'll break myself before this trend

Repeat chorus
