Heaven has sent you from above, baby
Love that I needed so long, baby
Never before did I feel this heart break
Thrill to you, baby, oh, I'm far away

And tell me why was my life
Never sweet as soul when soul cries
And can you open my eyes
And let me know where love lies

Oh, try to be close to me
Never let me go, girl
[Incomprehensible]
Don't ever let me go

Try to be close to me
Never let me go, girl
[Incomprehensible]
Don't ever let me go
Let me hear you say so, let me

I was a witness
To disharmony
Somebody taking away
Another part of me

Tell me why was my life
Never sweet as soul when soul cries
And can you open my eyes
And let me know where love lies

Oh, try to be close to me
Never let me go, girl
[Incomprehensible]
Don't ever let me go, girl

Try to be close to me
Never let me go
[Incomprehensible]
Don't ever let me go
Let me hear you say so
[Incomprehensible]

Tell me why was my life
Never sweet as soul when soul cries
And can you open my eyes
And let me know where love lies

Oh, try to be close to me
Never let me go, girl
[Incomprehensible]
Don't ever let me go, girl

Try to be close to me
Never let me go
[Incomprehensible]
Don't ever let me go

Try to be close to me
Never let me go
[Incomprehensible]
Never let me go

Play it out, never doubt
Don't let me, don't let me, let me go
It's all about reaching out
Never, no, no, no, no, no

Try to be close to me
No, no, no, no, never let me go
[Incomprehensible]
No, no, no, no, never let me go

Play it out, never doubt
It's all about reaching out
Never, never, never let me go
