Oh yeah
Send me baby, send
Ooh
Pam, pam, param
Ta, ra, ra, ram

Cafe cats are waiting, loves anticipating
Coffee steaming on a rainy day
Couldn't stay at home, all those souls alone
Dropping by and looking for another taste

See you smiling from across the bar
Take a little wine, have a good time, let's see
Are you waiting for the night to start?
Baby, I'll come around if you're here for me

You're so lovely, so lovely
Let me know if you want me
Baby, come on

Send me the night, send me what's right
Send me your guiding light, send me your love
Send me your groove, send me your velvet mood
Send me smooth, send me your love

Maybe love's in bloom like an old sly tune
We can spin the words around the moon
Mind and body met, Heaven starts to sweat
Ecstasy forgets about staying cool

Not just one more night out on the town
Breaking down all that's gone before
Feeling things I thought were long passe
Coming around again, coming on today

Baby, nothing ventured, nothing learned
There's no way to fake it
Baby, can we take it?

Send me the night, send me what's right
Send me your guiding light, send me your love
Send me your groove, send me your velvet mood

Send me smooth, send me your love

Send me your kiss, send me another wish
Send me this, send me your love
Send me your smile, send me an ounce of style
Send me baby send, send me your love

Ooo, ooo, ooo, love, love, love, love
Ooo, ooo, ooo, love, love, love, love
Ooo, ooo, ooo, love, love, love, love
Ooo, ooo, ooo, love, love, love, love

Send me baby, send
Send me baby, send
Send me your love

Maybe this is how we're meant to stay
I won't stop until you, oh, no, no, drop until you
Make me, make me, baby, baby, baby, baby

Send me the night, send me what's right
Send me your guiding light, send me your love
Send me your groove, send me your velvet mood
Send me smooth, send me your love

Send me your kiss, send me another wish
Send me this, send me your love
Send me your smile, send me an ounce of style
Send me baby send, send me your love

Send me your kiss, send me another wish
Send me this, send me your love
Send me your smile, send me an ounce of style
