"Talking To You"

I try, try to make it right
But every day it's like it was a first night
Sweet dreams
Your dreaming doesn't matter
When you're wide awake
All the patterns scatter
If you run away and don't listen to me
You're only hurting on your own
You see

(Chorus)

Talking to you is like talking to myself
Talking to you is like talking to myself
You're sleeping in while there's a riot rollin' down
Can't you understand we got a good thing goin' on

I'm saying
There's too much noise around
You live behind a wall
Of unrelated sound
Are you hearing me?
Cause I couldn't tell
Is it "Ooo yeah" or is it just "Oh well"

Repeat Chorus

Shine on prove to me
Something real
Someone can see
Is it sand or gold dust in my hand?

Repeat Chorus
