First round
Frat music
Clinton Sparks
Yeah, let's go

With me these girls wanna party,
I never seen them so attracted, hardly
Got me stuck on your face and your body
But really girl I'm just trying to party
(2x)

Get down with a frat star,
You won't regret it the morning after
You will if you decide to pass up, the chance to get high
like NASA
Partying my ass off
And the zone is starting to get faster
And now that I'm a rapper
Girl maybe you should capture, me like a picture
Get the message that I'm sending
Any relationship is ended
When it comes to girls, yea I get plenty
I'm a frat start surroundin' girls in laughter
Cause I'm on a new level way past ya
Sorry I already lapped ya
Some say I'm conceded
But really they just some hating bastards
They mad I do it right and the way they do their shit is
backwards
So girl come get at us, I promise that you'll get mad
love
I run this campus anyway, baby I got this wrapped up

Cause you've been on my radar,
Let me take you home
Tell your friends you'll see em later
I'm just down to roll a couple blocks it's nothing major
If you wanna go then let's roll in the 'scape ma
Promise this won't take long

With me these girls wanna party,

I never seen them so attracted, hardly
Got me stuck on your face and your body
But really girl I'm just tryin' to party
(2x)

Late night I'm fucked up
Trying to find the exit
I keep on shaking my head
But this chick wants it between the legs, shit
Drinking to get wreckless
Dancing to impress with
Pounding Natty ice baby, it's nothing but the bestest
A, a, a, bad night
Take her back to the pad right
Cause my t-shirt is mad white, with all these fucking
black lights
Other girls gonna get mad tight
And I ain't even that black right now, now
So no way I'm going down, down
Kanye told you college sucks so you should drop out,
out
But me, I'm just going to finish to make my parents
proud, proud
I'm just getting love
You must have the wrong crowd, crowd,
And if you better guess,
Beach weller got us now

Cause you've been on my radar
Let me take you home
Tell your friends you'll see em later
I'm just down to roll a couple blocks
Nothing major
If you wanna go then let's roll in the 'scape
Promise this won't take long

With me these girls wanna party
I never seen them so attracted, hardly
Got me stuck on your face and you body
But really girl I'm just trying to party
(2x)

Girl: Am I embarrassing you?
