Take it all

I would willingly give you everything

this could fall

if you want it to

or we could take this time now and move

I don't want to lose it

I don't want to lose it all

I don't want to lose this feeling

Where you are

is it really where you want to be

has it gone too far

did you want it to

is this time to find out and move

I don't want to lose it

I don't want to lose it all

I don't want to lose this feeling
