just one moment a little time and you will find the feeling has gone - has gone if I could show you to close your mind would be a crime - just hold on hold on I'll be there when you call me I'll be waiting With love with a little love With love with a little love The way it seems to me it's just an ordinary pain and it won't go.Let it go

a time that's gone and doesn't matter any more let it go l'll be there when you call me l'll be waiting With love with a little love With love with a little love There's a way to turn it all around you have everything you need With love with a little love with a little love with a little love
