"Intuition"

Visit "[Intuition](#)" on MotoLyrics.com

I've got a feeling
My intuition's telling me so
Just the beginning
A seed you planted deep in my soul

And I never knew this love before
Didn't have a clue that there was more
So I'm gonna tell you how it's gonna be
Going down with me, going up this street

No matter what it takes, no matter what they say
Gonna use my intuition
No matter how tough, I'm never givin' up
Gonna use my intuition

This voice inside me
Is screaming don't put fear in the way
Let your spirit guide me
Like a shining light that's calling my name

And I never knew one love so strong
Didn't have a clue where I belong
Now I'm like a kid in a candy store
Always wanting more, coming back for sure
And you gotta believe

No matter what it takes, no matter what they say
Gonna use my intuition
No matter how tough, I'm never givin' up
Gonna use my intuition

No matter what it takes, no matter what they say
Gonna use my intuition
No matter how tough, I'm never givin' up
Gonna use my intuition

I know we can make it
My intuition tells me

Ain't no one else for me
Ain't no one else, ain't no one else

I know we can make it
My intuition tells me
Don't tell me no, don't tell me no
Don't tell me no, baby

I know we can make it
Ain't no one else for me

I know we can make it
My intuition tells me
Don't tell me no, don't tell me no
Don't tell me no, no

No matter what it takes, no matter what they say
Gonna use my intuition
No matter how tough, I'm never givin' up
Gonna use my intuition

No matter what it takes, no matter what they say
Gonna use my intuition
No matter how tough, I'm never givin' up
Gonna use my intuition

I never knew my love's so strong
Never knew where I belong
I'll never give it up, give it up
Oh, I'll never give it up

No matter what it takes, no matter what they say
Gonna use my intuition
No matter how tough, I'm never givin' up
Gonna use my intuition

No matter what it takes, no matter what they say
Gonna use my intuition
No matter how tough, I'm never givin' up
Gonna use my intuition
