I used to think love was a dying art

Compassion couldn't live within a crowded heart

I saw my freedom in a poor man's eyes

Hope like a light, will to survive

A sense of dignity to hold up high

These are the simple things

That keep us all alive

And though the rich buy power for a time

One thing that money can't buy

Chorus

Love and compassion

(only) Love and compassion

Give it to you

Give it to me

Love and compassion

(only) Love and compassion

That's what it takes

(give love...you're gonna feel love...

Ooo... feel love... you're gonna give love)

One night when I was feelin' all alone

I saw a shadow walking in the danger zone

I knew that I would have to make a choice  
Hunger in my heart, hunger in my spirit  
We won't be free until we equalize  
The price of power to the price of every life  
And though I know it's gonna take some time  
Someday we're all gonna find  
Love and compassion  
(only) Love and compassion  
Give it to you  
Give it to me  
Love and compassion  
(only) Love and compassion  
That's what it takes to relate  
Love and compassion  
(only) Love and compassion  
Give it to you  
Give it to me  
(only) Love und compassion  
That's what it takes  
(give love... Ooo feel love... you're gonna  
feel love... if you give love)  
Love und compassion  
Love und compassion  
Love und compassion  
Love und compassion

Love und compassion  
(only) Love und compassion  
Give it to you  
Give it to me  
Love and compassion  
Someday we're gonna find it  
Oh when I was alone  
And I reached out for more  
I just opened my eyes  
Love und compassion  
I know it will take some time  
But you know we're gonna make it come true  
Love and compassion  
All my love and compassion  
Love und compassion  
Love und compassion  
All my love, All my love und compassion  
Someday, someday we're gonna find it, realize it  
Take some time to give  
Love und compassion  
Hope like a light, and a will to survive...
