I like this room

It's got me

Dancin' down and dirty on my knees

Get lit up

Tell those lies

Wicked enough to melt your ice

I can see baby

Touch on me

I can see most any possibility

Got to do it. Got to use all my love

Too much is never enough

You've got to sing out

You've got to sing out

You've got to sing out

Sing Out Sing Out

Chorus:

Love out loud

Tell me what you wanna do

Love out loud

You've got to love out loud

Don't look down

Tell me what you wanna do
Love out loud
Got no time
Time to choose
Wait a second now you're gonna loose the mood
Got to do it
Got to use all your love
Too much is never enough
You've got to sing out
You've got to sing out
You've got to sing out
Sing Out Sing Out
Chorus:
Love out loud
Tell me what you wanna do
Love out loud
You've got to love out loud
Don't look down
Tell me what you wanna do
Love out loud
