(Words & Music: D. Hall)

Old girlfriend she come walkin down the street
When I saw her it was like seeing a stranger
But even if I try to work it up no emotions are there
That's when I realise what you are to me
And how much I really care

Number One
You're Number One with me

Blast from the Past say "Why don't you call me
anymore
It's been too long and some nights I need you so."
But even if I tried to work it up no emotions are there
And I realised what you are to me
And how much I really care

Number One
You're Number One with me
