There is nothing more complicated than love
Denial is the game we shouldn't play
It's hard for me when i'm trying to forget
Is what we had something that i should regret?
Feelings that won't just go away
[Chorus:]
Cause I've fallen in love... [2x]
With you

Denial is the game we shouldn't play
Accept the truth and hope the pain goes away
I know this pain is so hard to bear
But i can make it through..
I know I can
Love makes me deny what i feel deep down inside
[Repeat chorus]
