I went out on the street today the Canadian dream was  
as far away

As it's ever been, as it's ever been

I went out on the street today the Canadian dream was  
as far away

As it's ever been, as it's ever been

S O C I A L I S M is here to stay

S O C I A L I S M is the only way, hey

Frozen land and frozen minds

Frozen hands and frozen time

Frozen land and frozen minds

Frozen hands and frozen time

'Cause everything moves real slow when it's forty  
below

Everything moves real slow when it's forty below

Everything moves real slow when it's forty below

Yeah, everything moves real slow when it's forty below,  
when it's forty below

S O C I A L I S M is here to stay

S O C I A L I S M is the only way, hey

'Cause everything moves real slow when it's forty  
below

Everything moves real slow when it's forty below

Yeah, everything moves real slow when it's forty below

Everything moves real slow when it's forty below, when  
it's forty below

I went out on the street today the Canadian dream was  
as far away

I went out on the street today the Canadian dream was  
as far away

S O C I A L I S M is here to stay

S O C I A L I S M is the only way, hey
