Lately I've been watching you from around  
And baby I must say  
I don't like seeing you this way  
You've been walking around  
With your head hanging round  
And I haven't seen your pretty smile in a while  
Now I know what's on your mind,  
Cause it's on mine too  
We're best friends  
I'm falling for you, you're falling for you  
So let's stop fooling ourselves  
And stop wasting time  
And start the first chapter of you and I  
So can I take you out for a bite to eat  
And get to know in a different way  
Can I take you out and show you how you supposed to  
be  
Treated

I don't wanna hurt you, I don't wanna make your cry  
I don't wanna make your cry  
Baby all I wanna do is show you what it's like to be  
loved  
Not trying to complicate things but we can't fight this  
feeling  
Let's show each other what it's like to be loved  
I don't wanna hurt you, I don't wanna make your cry  
I don't wanna make your cry  
Baby all I wanna do is show you what it's like to be  
loved  
Not trying to complicate things but we can't fight this  
feeling  
Let's show each other what it's like to be loved

Uh, I should have seen this coming, from a mile away  
We've been holding back these feelings since the very  
first day  
But I'm stuck on you, what else can I do?  
I should make you happy  
I wanna make you happy  
You wanna stay friends we can

... take the chance, make this friendship to a special  
place  
For me and you, whoa,  
Whatever you wanna do, I'll do it for you  
So can I take you out for a bite to eat  
And get to know in a different way  
Can I take you out and show you how you supposed to  
be  
Treated

I don't wanna hurt you, I don't wanna make your cry  
I don't wanna make your cry  
Baby all I wanna do is show you what it's like to be  
loved  
Not trying to complicate things but we can't fight this  
feeling  
Let's show each other what it's like to be loved  
I don't wanna hurt you, I don't wanna make your cry  
I don't wanna make your cry  
Baby all I wanna do is show you what it's like to be  
loved  
Not trying to complicate things but we can't fight this  
feeling  
Let's show each other what it's like to be loved
