I see so many faces
Up on the internet
Some like to keep in touch
And Some I never met

I been so many places
And no I can't forget
Where I come from
Frisco Mindset

I love life like
The way it should be
The way it's always been
I wish you would see

Love life like
Its goin' non-stop
The way it used to be
Its all worth while

CHORUS
And everything is so beautiful
Say with me its illusional
Love is all we need after all
Everything is so beautiful
Under the Sun
Under the Sun
Under the Sun
Under the Sun
