Her lips, her skin, her mouth you're in
The taste, the touch, last night you fucked
Her in, her bed, it's in my head
One more time you said, I want you one more time
Play stop rewind
Now I don't believe a single word you said
I can't believe the words that I just read
Look me in my eyes and tell the lies
Baby say it's safe to say goodbye
I can't hear, I'm lost, in last night
I can't see, I'm watching last night
Her lips, her skin, her mouth you're in
The taste, the touch, last night you fucked
Her in, her bed, it's in my head
One more time you said, I want you one more time
Play stop rewind
In two drinks time I know that I'll be fine
I'm fighting back the tears but I won't cry

I won't hear, lost in tonight
I won't see, lost in last night
I won't remember, I won't feel any better
One more round
One more rewind
One more play in any race
And then I'll let you go
Say your last goodbye and I won't hunt you down
Play me more one time
Play stop rewind
Her lips, her skin, her mouth you're in
The taste, the touch, last night you fucked
Her in, her bed, it's in my head
One more time you said, I want you one more time
Play stop rewind
