1st I start to realize, that it happens before my eyes. I
knew that it's not easy. being me.

I want to know, what's happening? am I goin crazy?
(goin' crazy) it doesn't matter if you think that it's easy!
it's easy it's easy.

What time is it? to realize that you want me? I don't
need you to try to haunt me. you may be gone, but not
for long. I need you now.

I want to know, what's happening? am I goin crazy?
(goin' crazy) it doesn't matter if you think that it's easy!
it's easy it's easy.

Feel the pain I feel right now, I am openin' a cloud. to
just see the way, that you treat me!

I want to know, what's happening? am I going? (goin'
crazy) it doesn't seem to matter if you think that it's
easy it's easy it's easy it's easy it's easy!
