Don't despair, don't lose hope
Hold on to that rope
Don't let go, don't let go
I hear your call

Though you feel so cold
Abandoned and alone
But don't let go, don't let go
I hear your call

Give me your hand my brother
I will not let you go
Please don't look back my sister
I swear I hear you call
Give me your hand my brother
I will not let you fall
Please don't look back my sister
'cause I swear I hear your call

Little boy ask away "where are the streets I used play
to?"
But don't let go, don't let go
I hear your call
Don't you know we're one
When you hurt I hurt
Don't let go, don't let go
I hear your call
