(English Translation)
That's it, what do you want of me?
Just keep away of me.
Try to understand me.
We are over.
That's it, Why did you return to me?
Just be relieved and forget me.
I swear I don't need anything related to you.

You are saying I used to love you
And honestly I don't remember you
Just tell me what are you talking about?

You already had your chance and you lose it.
You can keep dreaming and I don't care of you.

You are trying to make me love you.
And you are dreaming of having me
Just calms down, you've went so far in your fantasies.

You shouldn't think that I'll return to you.
Just find someone else, your speech to me will change
nothing.

You started all of this and now it's easy to me to treat

you badly.

It's easy to see you and not missing and thinking to
return to you again
