LET THERE BE LOVE

Sammy Kaye

That moon up high, the night he found us

He threw a magic spell of moonbeams all around us

And when he saw the scene was set,

He whispered let there be love.

The sleepy birds up in the branches

They stayed awake, they weren't taking any chances

Because they knew that they

Would soon be singing let there be love

The night winds that kissed your cheeks

Had been preparing weeks and weeks

They told the raindrops from above

Be sure and stay away on this night of love

And when they knew we were romancing,

They are so overjoyed the stars were even dancing

And then our hearts told us to kiss, and whispered

Let there be love
