If you meet me by the river
I'll tell you what's forever
If you hold me there forever
I remember dying
I remember dying
But as I drift to sleep
When I just can't yet
Twenty thousand sheep
Some I will forget
Looking up as if
I was still awake
Looking up as if
You were still
If you meet me by the river
I'll tell you what's forever
I remember dying
'Cause I remember dying
By the river
By the river
'Cause I remember dying ...
