The Samples

Weight of the World

With my hands I will build you

Castles in the sand

And the promise of a land

That it will keep you

From the weight of the world

They all ran away on our horses

Leaving nothing to be found

They dug our dreams up from the ground

And took our forces from the weight of the world

From the weight of the world

Was life too heavy

Will you be free

You may never get older

It no longer hangs over

So let go of the weight of the world

The weight of the world

Can I please have one more dance with you

Good-bye, all I've held and loved and knew
