Nothing's Getting Better
Nothing seems to change
If we don't fight this bullshit
It will never go away

Support your fucking country
No matter what she does
Cause liberty's a bitch
If you don't do what she wants

Here's an anthem for the end of times
Cashed in the last win for our side
Through a shrouded of security and pride
Freedom rings from the voices who have died

And if the people only cared about
What we have to lose
We would tie the rope for our own noose
Now were dangling from the tree we call society
Claiming to be free

Learn to fear your god
Learn to fear the gun
That enforces our well being
Our safety for our freedom

Protection of the people
Through monitoring lives
You deserve what they give you
If you never question why
