Remembering my days with you
And I just can't forget
Every memories, memories that's
So hard to forget

In my mind, you never fade

Staring at the ceiling of my room
While I'm writing this song for you
Everything was clear to me
I'm dying here, can't you see?

It's just like yesterday
You and me were the greatest thing
The only thing that I'll never forget

In my heart, you never fade

Staring at the ceiling of my room
While I'm writing this song for you
Everything was clear to me
I'm dying here, can't you see?

Can't You See! ?

Yeah!

Staring at the ceiling of my room
While I'm writing this song for you
Everything was clear to me
I'm dying here, can't you see?
