Another feature film about an air-line disaster  
Another news item and another newscaster  
But there's worst to come at the arrival gate  
There's a crack on board and it's running in freight

Well the fruit of the poppy take up all your time  
Getting high by the hands of re-organised crime  
Put the put the squeeze on the Colombian leaf  
Make the brother a liar and a sister a thief

It's nothing like velvet, nothing like velvet  
It's nothing like velvet but it starts off smooth  
Nothing like velvet and a rut's not a groove  
It's nothing like velvet when it's pound on pound  
Nothing like velvet when you're underground

They're shooting up Glasgow, shooting up Leeds  
There was never this peril with the stems and seeds  
And the hip and the right have got nothing to say  
Except, "It's out of control and it's headed your way"

It's nothing like velvet, nothing like velvet

And I loved Charlie Parker but you know he did us harm  
Every time he left to pour that inspiration in his arm

It's nothing like velvet but it starts off smooth  
Nothing like velvet and a rut's not a groove  
It's nothing like velvet when it's pound on pound  
Nothing like velvet when you're underground
