"The False Prophet"

Visit "[The False Prophet](#)" on MotoLyrics.com

Purposeful lie every day
Harped on bullshit
A man gradually believes
That the help really is in phone
He dials a number nice voice is responding
And it starts blabing bullshit
It gives hope, promising future
But it only takes away money and illusions

Fucked up whore lives already for 1000 years
Rot and fraud radiates from her rotten gob

Symbol of abomination and degeneration
False horoscopes and predictions

My name is Theodor or Izabel
I am an old cockeyed cunt
I haven't under control even my very life
But I can help to you all
