Lost in all the love you gave me,
Take for granted all my pain,
Tell me what it is I can be,
I'm to blame.
Show me I'm the only one,
And give me all the care I need.
Hold me by your side forever,
Hear my plea.

Chorus:

I'm through...
I've been honest and true.
If that's not enough it's you,
I won't take the blame.
I am new...
So what are you gonna do?
Pretend that I'm into you,
I won't play your games.

Caught up in your selfish rage,
Cause you're the only one you see.
Locked up in this prison cage,
So set me free.
Controlling every move I make,
There's something wrong with this I know.
It's more than I could ever take,
I'm letting go.

(Chorus)

I thought you were right for me,
But I was blind.
All along it's plain to see I need to say goodbye...
Goodbye.

(Chorus)
