I'm gonna push the button flick the switch today  
'Cause you got nothing I want, I got nothing to say  
It's been 16 days since I seen your ass  
Heading to the city, you think your high class

A harmonic generator, inter modulator  
A harmonic generator, inter modulator

Wearing next to nothing, she's out of control  
She likes to shake what she got from her head to her  
toe  
She got big yellow eyes lighting up like Christmas  
Turning tricks baby, electric mistress

A harmonic generator, inter modulator  
A harmonic generator, inter modulator  
Yeah oh

Like a harmonic generator, inter modulator  
A harmonic generator, inter modulator, yes

Come on, now let's shake it down  
Down to a harmonic generator  
"Here we go", I said, yeah, yeah, what's up? Yeah

Well like a harmonic generator, inter modulator  
A harmonic generator, inter modulator

A harmonic generator, inter modulator  
A harmonic generator, inter modulator  
A harmonic generator, inter modulator  
A harmonic generator, inter modulator, yeah
