You are the passion
Dream on
You, you are the passion
Dream on

I get a feeling I'm needing it now
I have a feeling the rhythm's gonna take control
I know the music will open my mind
And when I'm dancing I'm wanting it more
And more and more and more

You are the power for everyone to see
You are the freedom, cos every life is free
You are the passion, turn on and visualize
You are the rhythm, dream on and open your eyes

I get a feeling I'm doing it now yeah
I feel I'm melting the walls of reality
I know the music will open the door (the door)
Until my body is whole and my mind is free
So free so free

Dream on
