I can't afford to lose her the stereo consumes her
I've wanted to say what I've felt for so damn long
Now that I did she's up and gone
Why do I fall for nothing at all

Take me back to the night we fell in love one shot now
or never
I tried leaving but she was like a drug so week I
surrender
Time breaks me down but I was a dreamer
She stole my heart and turned this boy into a believer

Love spins in so many directions
I'm staring at a movie screen all by myself as she
walks by with someone else
I'll never win when she still loves him
So why do I fall for nothing at all

Take me back to the night we fell in love one shot now
or never
I tried leaving but she was like a drug so week I
surrender
Time breaks me down but I was a dreamer
She stole my heart and turned this boy into a believer

I'll never win when she still loves him
So why do I fall for nothing at all
Take me back to the night we fell in love one shot now
or never
I tried leaving but she was like a drug so week I
surrender
Time breaks me down but I was a dreamer
She stole my heart and turned this boy into a believer
