Mm-mmm devotion
Yeah devotion
Oh yeah

You're reaching for a star in the night
Just wait until the rain makes it fall down
The city's gonna shine in the night
A vision of a devotion

You're reaching for a star in the sky
Just wait until the rain makes it come down
The city's gonna shine in the night
A vision of a devotion

There's another sound for words
Where nothing's said and joy is heard
There is another word for sound
You see it when you don't listen
You're reaching for a star
Just wait until the rain
The city's gonna shine
A vision of a devotion

You're reaching for a star (devotion yeah)
Just wait until the rain (devotion oh yeah)
The city's gonna shine (devotion yeah)
A vision of a devotion (it's gonna give you devotion)

There's another sound for words
Where nothing's said and joy is heard
There is another word for sound
You see it when you don't listen
