"Counting Trees"

Visit "[Counting Trees](#)" on MotoLyrics.com

When the sun rises up I can hear my people singing
around
To the fields of my heart they push the button turning
me up
With my friends on the floor I'm burning up all your
cables down
So if you really want to taste the freedom do it like I do
it now

I want to live where the sun always shines
People electric together we're up to the (dawn)

My people party around
My people get a new sound

I'm counting trees till my body gets red in the sun
I'm counting trees cause this world gets dump and
thumbed

When the sun rises up I can hear my people singing
around
To the fields of my heart they push the button turning
me up

I want to live where the sun always shines
People electric together we're up to the (dawn)

My people party around
My people get a new sound
My people know me well
My people like to dance into hell

Oh-Oh

I can't go on
Waste my friends with?
I can't go on

Oh-Oh

I can't go on
Waste my friends with?

I can't go on

So this is how come meet the place inside your head
Wonder how these people come to me here
Don't touch my skin when my lungs are on fire
Just hold my hand and my blood runs cold

I can't go on
Waste my friends with?
I can't go on

So this is how come meet the place inside your head
Wonder how these people come to me here
Don't touch my skin when my lungs are on fire
Just hold my hand and my blood runs cold

I can't go on
Waste my friends with?
I can't go on

My people party down (Don't want to walk away, don't
wanna fuck)
My people party down (Don't wanna run away, don't
wanna fuck)
My people party down (Don't want to walk away)
My people party down (Don't wanna run away, you
wanna fuck)
