What is the time and when did you start or begin
The tired blue eyes see places under my skin
They locked this house and push us over the edge
I don't wanna wake cuz I feel his hand on my skin

Sorry, I just wanna be your game
Sorry, baby turns around the same (throw/blow it away)
Sorry, baby let me be your red
Sorry, locked ourselves inside a she'd

The beat goes on like the s? on the coffee machine
Don't wanna wake cuz he wants me to get outta the
steam
He walks this house and burns my love into black
Choke?

Sorry, I just wanna be your game
Sorry, baby turns around the same
Sorry, baby let me be your red?
Sorry, locked ourselves inside a she'd

You daren't stop
You daren't stop
You daren't stop
You daren't stop
We are not the same
We are not the same
When you throw it away

Sorry, I just wanna be your game
Sorry, baby turns around the same
Sorry, I just wanna love you again
Sorry, locked ourselves inside your head?
