"Just A Friend"

Visit "[Just A Friend](#)" on MotoLyrics.com

When the day comes to an end and darkness takes it's
place, I hear a sound that makes me go 'round
'Cause I am searching for someone to join me and to
take away that sound that makes me go 'round
I gotta go round
Could there be somebody who wants to help a lonely
man?
It doesn't have to be a lover, just a friend
Just a friend

I don't really like this walking through the lonely streets
but it's that sound that makes me go 'round
I gotta go round
Could there be somebody who wants to help a lonely
man?
It doesn't have to be a lover, just a friend
Just a friend

Could there be somebody who wants to help a lonely
man?
It doesn't have to be a lover, just a friend
Could there be somebody who wants to help a lonely
man?
It doesn't have to be a lover, just a friend
Just a friend
