"True Love"

Visit "[True Love](#)" on MotoLyrics.com

We have been quiet a few days together but I can't help
to think you don't like it this way
First you made me feel this was all forever
It's so sad to know that it's different today
That's why I wonder what you gonna do when I say,
when I say, "Do what you wanna do
Make everybody love you
Nobody is important but you"?
True love that's a wonder
True love that's a wonder these days

We used to have such very long talks together but now
many times we don't know nothing to say
And that is why I wonder what you gonna do when I say,
when I say, "Do what you wanna do
Make everybody love you
Nobody is important but you"?
True love that's a wonder
True love that's a wonder these days

Do what you wanna do
Make everybody love you
Nobody is important but you
True love that's a wonder
True love that's a wonder
True love that's a wonder these days
