i was tramping up and down
all around from town to town
meeting people of every kind
some were good and some were bad
some were happy others sad
never know who you'll find
i've never met people like my friends
from wonderland
such a crazy band like my friends
from wonderland

people from ibiza people from ibiza
boys from wonderland
dancing on the sand
people from ibiza people from ibiza
girls from wonderland

living like a hobo
like a spanish lobo
ibiza is still on my mind
different places every day
every time a different way
to choose to be on the loose
i've never met people like my friends
from wonderland
such a crazy band like my friends
from wonderland
