"Empty Room"

Visit "[Empty Room](#)" on MotoLyrics.com

Treated like I don't exist
In a cage you call a home
And it makes me fill with hate
An empty room alone

And you made one mistake
I won't forget
I was treated that way

I can't find another damn reason
To keep breathing
Just wait
Can't find another damn reason
To keep breathing

Imagination was escape
From a disassembled life
And the voices, what they said
They won't be happy 'til he dies

And you made one mistake
I won't forget
I was treated that way

I can't find another damn reason
To keep breathing
Just wait
Can't find another damn reason
To keep breathing

You'll get yours
You'll get yours
You will
And I can't wait
'Til the day
When you get what you gave
And I can't wait
'Til the day
When you get what you gave
