Miss my face  
Paint a picture  
From your memories  
Of the past you created  
When you left me

There's no feeling  
Left me bleeding  
Left behind and it's been on forever  
Like you did back then  
Never again

And the lies get distorted  
From your memories  
Of the lies that you gave him  
Will you take me?  
And it's you that I needed in time

There's no feeling  
Left me bleeding  
Left behind and it's been on forever  
Like you did back then  
Never again

There's no feeling  
Left me bleeding  
Left behind and it's been on forever  
Like you did back then  
Never again

Only yesterday we stayed alone and cried  
Only yesterday was ever stated  
"Never again"

Miss my face  
Paint a picture  
From your memories  
Of the past you created  
When you left me

There's no feeling  
Left me bleeding

Left behind and it's been on forever  
Like you did back then  
Never again

There's no feeling  
Left me bleeding  
Left behind and it's been on forever  
Like you did back then  
Never again

No, no, no, no, no  
Never again  
No, no, no, no, no  
Never again  
No, no, no, no, no  
Never again  
No, no, no, no, no  
Never again  
No, no, no, no, no  
Never again  
No, no, no, no, no  
Never again  
No, no, no, no, no  
Never again
