Sanity
"Sleep Together"

You know what I want
And you know

It's the clothes that you're wearing
The way that you walked in
In my head I know you're asking for it
It's the clothes that you're wearing
The way that you walked in
In my head I know that you want this

Hey, what's your name?
Can we sleep together?
I'll take you home when you're drinking
You came with a friend
Well, we can leave together
Just lay on my bed

I'm alone
And it's Friday
I just want a girl to take back to my place
I don't care if she's there in the morning
One call, I'll give you a fair warning
Dizzy here, what am I drinking?
Legs give when there's no feeling
Just wanna leave this place
It's a pain I wanna taste

You know what I need

It's the clothes that you're wearing
The way that you walked in
In my head I know you're asking for it
It's the clothes that you're wearing
The way that you walked in
In my head I see you naked

Hey, what's your name?
Can we sleep together?
I'll take you home when you're drinking
You came with a friend
Well, we can leave together
Just lay on my bed

It's the clothes that you're wearing
The way that you walked in
In my head I know you're asking for it
It's the clothes that you're wearing
The way that you walked in
In my head I see you naked

Hey, what's your name?
Can we sleep together?
I'll take you home when you're drinking
You came with a friend
Well, we can leave together
Just lay on my bed

It's the clothes that you're wearing
The way that you walked in
In my head I know you're asking for it
It's the clothes that you're wearing
The way that you walked in
In my head I see you naked

Hey, what's your name?
Can we sleep together?
I'll take you home when you're drinking
You came with a friend
Well, we can leave together
Just lay on my bed
