

Sanjaya Malakar "A Guy Like Me"

Visit "[A Guy Like Me](#)" on MotoLyrics.com

Tomorrow I'll give you the morning
Tomorrow I'll give you the sun
Let me wrap my warmth around you
Til our souls become one

You see, the way the spirit...sits around you
Seem too blind and lose their way
You feel you have to find a reason
Just to bow your head and pray

Let's fly across the world
(I got ya babe)
Anything you need
(It aint a thang')
You're a queen to me
(A perfect ten)
So let me show you what's my master plan
Talking on the phone
(Till three am)
Walks along the beach
(You wont forget)
A moment in time you won't regret

CHORUS

You ain't never met a guy like me
Anything you need just call on me
Been around the world but you're what I need
Come and let me show you I know what you need
You ain't never met a guy like me
I know how to treat you like a lady
Make sure you're feeling cute and sexy
Come and let me know show you I'm what you need
I know what you need

Tomorrow I'll give you the morning

Tomorrow I'll give you the sun
Let me wrap my warmth around you
Til our souls become one
Where you wanna be in 20 yrs?
How you gonna deal with all those fears?
Baby we wont fight, you're always right

I wanna know who you are inside
You're a dime to me - no one compares
See you when u walk, and they all stare
Like stars from the skies are in your eyes

CHORUS

You ain't never met a guy like me
Anything you need just call on me
Been around the world but you're what I need
Come and let me show you I know what you need
You ain't never met a guy like me
I know how to treat you like a lady
Make sure you're feeling cute and sexy
Come and let me know show you I'm what you need
I know what you need

It's really not up to me
Got to let your soul fly free
Come to find your peace of mind
You ain't never met a guy like me woo
Been around the world but you're what I need
Come and let me show you I know what you need
You ain't never met a guy like me
I know how to treat you like a lady
Make sure you're feeling cute and sexy
Come and let me show you I'm what you need
