

Santa Esmeralda "Generation"

Visit "[Generation](#)" on MotoLyrics.com

Long ago they lived for simple things
Now we live for things we leave behind
Even though (?) it's all generation

People stare and still they don't believe
Tell them where did all their heroes go?
Can't they see it's all generation

Chorus:
Do you really know?
Generation
Do you really know?
Generation
Only you will know
Generation
Whoa
Generation

Even though it's just a simple thing
We feel you've learned to love some more
Do you see? It's all generation

Please take care
I leave you everything
What I know is all I can give

You are all (it's all!) generation

Chorus

Yes I see I've taken everything
Truth and love is all I leave behind
Now I see it's all generation

Chorus
