Lyrics

All the Love of the Universe

Oo, oo, do...

New thoughts

Will purify my mind

and clean my body

New lives

will fall together like an endless story

All the love of the universe

will be shared by all that's living

And I don't really care

about tomorrow

Today

is all I really need to find the answers

I'll find the constant flow

of all the harmony

Everybody needs a helpin' hand

Everybody needs a helpin' hand
