"Give And Take"

Visit "[Give And Take](#)" on MotoLyrics.com

It's a game of give and take
Life's a game of give and take
It's a game of give and take
Life's a game of give and take

Early in the mornin'
Get your concentration
On your meditation
Take the right direction
For future destination, for future destination

It's a game of give and take
Life's a game of give and take

Talk about your woman, give her some respect
She'll give you her devotion not just outside emotion
Talk about your country, there're really no such thing
for me
The whole world, the whole world is one big family

It's a game of give and take
Life's a game of give and take
Ohh yeah

Give it to me
Give, give, give, give
Ohh
Talk about your country, there're really no such thing
for me
The whole world, the whole world is one big family

It's a game of give and take
Life's a game of give and take
It's a game of give and take
Life's a game of give and take
