When I was a little boy  
I was raised down south in Mexico  
Nothing ever happened that was new to me  
Then one day we saw circus posters on the wall  
Suddenly, all my friends and I  
We heard a sound  
It was loud  
Music all around us seemed to make us free

Life is just a passing paradise  
Life is just a passing paradise

Everybody started dancing  
I never saw so many people having so much fun

Now I'm living in this country

And I have got myself a steady job  
I keep seeing people happy everywhere  
All I get to do is play my guitar

Come on! everybody get together, have some fun  
Come on! everybody get together, have some fun

Life is just a passing paradise  
Life is just a passing paradise

Everybody started dancing  
I never saw so many people having so much fun
