"Love Devotion & Surrender"

Listen, if you're tired of walkin' around
And getting nowhere
I know, there's a path
That's leading towards the master

Love, devotion and surrender
Love, devotion and surrender
Love, devotion and surrender
Love, devotion and surrender

Oh, brother, listen to the rhythm
Of your heartbeat
It's keeping time
With all the universal children

Love, devotion and surrender
Love, devotion and surrender
Love, devotion and surrender
Love, devotion and surrender

Sister, sing the song
Created for your brother
Louder, till the heart embraces
All the harmony

Love, devotion and surrender
Love, devotion and surrender
Love, devotion and surrender
Love, devotion and surrender
