Lyrics

Stone Flower

What's that sound I hear coming from the ground  
that' going 'round and 'round I can feel it pull me down  
On my knees tears of joy have come to me  
As the flower sounds made it plain to see

that this world is a perfect place to live  
there is a warm soft wind blowing 'round me just to  
give  
all the leaves such a haunting melody  
that forever will be a part of me

Just like a ship out on the sea  
floating alone no one around me or beyond me  
the sun is on me

then suddenly I felt a kiss out of the breeze  
that did caress me and possess me  
oh it astounds me

All around there's a feeling in the air  
that with the grace of time we'll be getting closer there  
but day by day I can see they walk away  
and I wonder, Lord will they ever know

that this world is a perfect place to live?  
Just look into your heart, find the love that's there to  
give  
Realize that the secret is to share
