Stay with it baby
And that's all I ask of you
And I know that some day
You won't remember
The way that this moment feels to you
Don't let it go
Don't turn your back on what you think you know
You never know, no
Don't leave it alone
'Cause I need you
To cling to

'Cause you are my kind
You're all that I want
Here in this life
Until we are gone
Our breath and our skin
Our hearts and our minds
They're one and the same
You are my kind

Well call on me baby
If you should ever need someone
To help get your head straight
I'll be your resident all night
Sure I'm glad just having you around
All that I know
When you find love you never let it go
Never let go
Without you I'm lost
I get scattered (get scattered)
I'm shattered

'Cause you are my kind
You're all that I want
Here in this life
Until we are gone
Our breath and our skin
Our hearts and our mind
They're one and the same
'Cause you are my kind

We're one and the same
You are my kind

guitar solo

Don't let it go
Don't turn your back on what you think you know
You never know
Don't leave it alone
'Cause I need you (I need you)
To cling to!

'Cause you are my kind
You're all that I want
Here in this life
Until we are gone
Our breath and our skin
Our hearts and our mind
They're one and the same
'Cause you are my kind

guitar solo

(You are my kind)

Our love and our life
My heart and my soul
I need you tonight
Your love makes me whole
And it's all I can stand
Until you come home
I need you tonight
'Cause you are my kind
I need you tonight
'Cause you are my kind
Ooooooh
You are my kind
Ooooooh
You are my kind
