Well I'm told at days old she was left on the steps
Of a preachers door mom and dad they felt bad but
that
Was one more problem that they didn't have what
would
It take to change there minds just one more someone
left behind

It's a good world gone real bad and only love can bring
it back

Now she's 13 and it seems she wants to look like the
Girls on the tv screen, she stayed thin she wont grin
But a tiney little friend keeps a calling again

What does it take to change her mind just one more
someone left behind

It's a good world gone real bad and only love can bring
it back

If she don't promise she can't have but nothing
changes
If she don't if she don't try

It's a good world gone real bad and only love can bring
it back

I said it's a good world gone real bad and only love
Can bring it back - bring it back, only love can bring it
back
